CAP FRO CHECKLIST QUESTIONS

1. Are PIC(s) qualified to fly the CAP aircraft for the type of flight proposed (consult the Ops-Qual FRO Report)? Does the PIC(s) possess the appropriate pilot currency for the flight?
2. Are all aircraft occupants CAP members? If not, have applicable procedures been followed for non-CAP members, including CAPF 9 if applicable?
3. Is the correct mission symbol selected?
4. Is the route of flight complete, and does the PIC have permission to fly to destinations outside the wing? Does permission exist for all landings at every airport IAW CAPR 60-1?
5. Will a flight plan be filed (required for over 50 nm)? If not, what is the estimated landing time? Unless an FAA flight plan is filed and activated, the FRO is responsible for initiating missing aircraft procedures two hours after the estimated landing time if not notified the flight was safely concluded.
